

MEBP is supporting all Medway schools this year who would like to use PET, a web based Personal Effectiveness Tool for supporting young people in developing enterprise capability.

MEBP will arrange a three hour training session for teachers or work related learning managers who would like to use the system in their school, and pay for one year's subscription.

Please click [here](#) for a free demonstration.

Please click [here](#) to express interest with MEBP. Someone will contact you with further information and / or a training date(s).
